RE: 2023-2024 National Academy League Season

To whom it may concern:

On behalf of the National Academy League), we would like to request the release of all players that are members of teams participating in our 2023-2024 games and events.

We recognize the importance of a player's education and as an organization, we've worked to accommodate the wide ranging academic calendars from each state.. Our schedule may result in a limited number of days missed from school. Your student recognizes his responsibility in making up missed work and potentially rescheduling exams.

The National Academy League provides a national platform through conference games and national events. These opportunities will help players be seen by numerous college coaches and scouts.

The dates of our showcase events are December 15-18, 2023, February 16-19, 2024 and February 23-26, 2024. Please allow for a travel day before and after competition days.

For more information on the National Academy League, visit www.nationalacademyleague.com

We appreciate your understanding regarding the potential absence of NAL players from school during these events. Please feel free to contact me directly with any questions at sean@cm8soccer.com.

Best regards,

SEAN CAREY
